RESPONSE TO PLANNING APPLICATION REF 2022/0629/V

Land at Newark Road, Coxmoor Road, Sutton in Ashfield NG17 5LD

Impact of new development on GP practice	The development is proposing 300 (A) one and two bedroom apartments which based on the average household size (in the Gedling Borough Council area) of 2.5 per dwelling would result in an increased patient population of approx 750 (B) (2.5 x A). The calculation below shows the likely impact of the new population in terms of number of additional consultations. This is based on the Dept. of Health calculation in HBN11-01: Facilities for Primary and Community Care Services. Consulting room Treatment room <table border="1" data-bbox="403 1019 1458 1330"> <tr><td>Number of Dwellings</td><td>A 300</td></tr> <tr><td>Proposed population</td><td>B 750</td></tr> <tr><td>Access rate (per patient per year)</td><td>5.26</td></tr> <tr><td>Anticipated annual contacts</td><td>3945</td></tr> <tr><td>Assume 20% patients use room</td><td>789</td></tr> <tr><td>Assume surgery open 50 weeks per year</td><td>16 contacts per week</td></tr> <tr><td>Appointment duration</td><td>20 mins</td></tr> <tr><td>Patient appointment time per week</td><td>5.3 hours</td></tr> </table> Treatment room <table border="1" data-bbox="403 1397 1458 1709"> <tr><td>Number of Dwellings</td><td>A 300</td></tr> <tr><td>Proposed population</td><td>B 750</td></tr> <tr><td>Access rate (per patient per year)</td><td>5.26</td></tr> <tr><td>Anticipated annual contacts</td><td>3945</td></tr> <tr><td>Assume 20% patients use room</td><td>789</td></tr> <tr><td>Assume surgery open 50 weeks per year</td><td>16 contacts per week</td></tr> <tr><td>Appointment duration</td><td>20 mins</td></tr> <tr><td>Patient appointment time per week</td><td>5.3 hours</td></tr> </table>	Number of Dwellings	A 300	Proposed population	B 750	Access rate (per patient per year)	5.26	Anticipated annual contacts	3945	Assume 20% patients use room	789	Assume surgery open 50 weeks per year	16 contacts per week	Appointment duration	20 mins	Patient appointment time per week	5.3 hours	Number of Dwellings	A 300	Proposed population	B 750	Access rate (per patient per year)	5.26	Anticipated annual contacts	3945	Assume 20% patients use room	789	Assume surgery open 50 weeks per year	16 contacts per week	Appointment duration	20 mins	Patient appointment time per week	5.3 hours
Number of Dwellings	A 300																																
Proposed population	B 750																																
Access rate (per patient per year)	5.26																																
Anticipated annual contacts	3945																																
Assume 20% patients use room	789																																
Assume surgery open 50 weeks per year	16 contacts per week																																
Appointment duration	20 mins																																
Patient appointment time per week	5.3 hours																																
Number of Dwellings	A 300																																
Proposed population	B 750																																
Access rate (per patient per year)	5.26																																
Anticipated annual contacts	3945																																
Assume 20% patients use room	789																																
Assume surgery open 50 weeks per year	16 contacts per week																																
Appointment duration	20 mins																																
Patient appointment time per week	5.3 hours																																

GP practice most likely to be affected by growth and therefore directly related to the housing development	It is unlikely that NHS England or Nottingham and Nottinghamshire ICB would support a single handed GP development as the solution to sustainably meet the needs of the housing development and that the health contribution would ideally be invested in enhancing capacity/infrastructure with existing local practices. The practices that are expected this development to be closest too is: • Willowbrook Medical Practice • Family Medical Centre Kirkby • Healthcare Complex Kirkby							
Necessary to make the development acceptable in planning terms	All practices in the area are working at capacity and therefore in order to make this development acceptable from a health perspective the infrastructure will need to be developed to accommodate the increased population. Infrastructure financing in the form of S106 will therefore be required to ensure that there is adequate primary care health facilities in the area							
Plans to address capacity issues	The practices are currently reviewing their options as to how they may accommodate the increased number of patients due to this housing development. It is likely that the plans will include either reconfiguration or extension of existing premises or a new build that this S106 contribution will contribute towards.							
Fairly and reasonably related in scale and kind to the development.	The indicative size of the premises requirements has been calculated based on current typical sizes of new surgery projects factoring in a range of list sizes recognising economies of scale in larger practices. The cost per sq m has been identified by a quantity surveyor experienced in health care projects. This is the cost of providing additional accommodation for 750 (B) patients: <table><tr><td>(B) Additional patients to be accommodated 750</td><td>x</td><td>(D) Standard area m²/person Based on total list size of approx. 0.085m2</td><td>x</td><td>(E) Cost of extension including fees £/m² £2,550</td><td>=</td><td>Total cost (B) x (D) x (E) £162,562.50</td></tr></table>	(B) Additional patients to be accommodated 750	x	(D) Standard area m²/person Based on total list size of approx. 0.085m2	x	(E) Cost of extension including fees £/m² £2,550	=	Total cost (B) x (D) x (E) £162,562.50
(B) Additional patients to be accommodated 750	x	(D) Standard area m²/person Based on total list size of approx. 0.085m2	x	(E) Cost of extension including fees £/m² £2,550	=	Total cost (B) x (D) x (E) £162,562.50		
Financial contribution requested	£162,562.50							

Date of response:	15 February 2023
