### **Opinion:**

Overview View: OBJECT

### **Comment:**

Comment: A house of multiple occupancy is not suited anywhere in this area. We are on a quiet residential street with very limited parking. The wall that is proposed to be destroyed dates back to the 1700s, which shows a disregard not only for the history of Kirkby but also for the residents now. I do not want my children subjected to an HMO; I moved here to avoid an HMO previously where we lived. [REDACTED]

Subjecting the residents here to even more parking restrictions is unfair, and subjecting the local area to an HMO is frankly contemptible. The property would be suited for 4 flats if the owner is struggling to find a use, or to be used as a residential care facility as it was previously, either for the elderly or adults with additional needs.
