

[REDACTED]

hello

I live on orchard road and a neighbour had a letter from the council to let them know about an application to turn the property of 5 orchard road into a care facility for teenagers

we are very concerned about this as I live near the building and we have lots of issues on this street without it being made any worse

I have not been told about any of this ?

can you update me on this please with any links to this or information

thank you
